A Few Words About Cataloging

In describing the condition of coins, each man has a standard of his own. The collector may feel content with his standard, but the dealer must adopt a most liberal standard, one that should come up to the highest expectations of every collector.

Classifying conditions of coins is simply more or less a matter of difference of opinions, or a difference whether we are BUYING or SELLING. Coins that have been returned to me as unsatisfactory have been accepted by other colectors as entirely satisfactory.

The method I have adopted in cataloging coins is a very simple one. I grade the coins as I see them if I were the BUYER. In this manner I have brought my standard up to where the returned lots of a sale are insignificant.

No one recognizes any stronger than I do that the collector has as much right as the dealer to have, hold and express an opinion regarding the condition of coins. I respect the opinion of every collector, and I want everyone receiving my catalogues to feel that when they see a coin catalogued as "fine," to know that it is really fine, and I also want you to feel that if you do not think that it is so after you receive the coin, you may return it. I truly mean this. I would much rather you would return than keep anything that is not entirely satisfactory.

Much as I love the science of numismatics, it is more than a hobby with me. It is a serious matter of business with me, and thanks to the very liberal patronage I am receiving, it is getting more "serious" right along. . . . . .

I want you to feel at perfect liberty to "disagree" with me; call my attention to any improvement you think I can make in my catalogues, or otherwise improve my service. I don't know it all—none of us do—but we can get along capitally by mutual suggestions, assistance and general goodfellowship.

Always glad to hear from you.

Numismatically and cordially yours,

Fort Worth, Texas, October 21, 1912.

PREFACE

In disposing of this interesting collection, Mr. Williams does not relinquish his interest in the numismatic science, but will devote his numismatic study to ancient coins exclusively.

The collection herewith offered is a delight to the true numismatist; while it does not include very high priced rarities, it includes pieces surely of high numismatic interest and historical value. The United States series are more than amply represented not only by scarce specimens, but their choice state of preservation is quite a feature.

The collection of Hard Times Tokens is far above the average both in completeness and in choice condition. The foreign section, silver and copper, is a most interesting one, and should appeal strongly to the general numismatist.

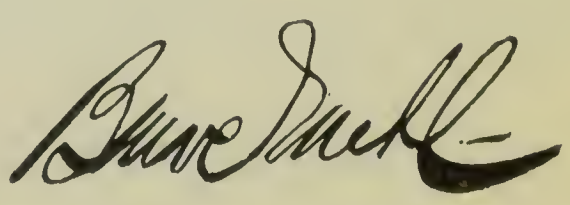
In cataloging the foreign coins especially, I have endeavored to give as full description as possible, thereby eliminating any guesswork on the part of the bidder. You know just what you are bidding on and you can afford to bid all that you are willing to pay for the coin you want and know what you will get. The United States series are catalogued very liberally, eliminating the necessity of your bidding on a lot of several pieces in order to secure just the one piece you want. This, with my guarantee of absolute satisfaction, should certainly prove ample attraction for you to send me your bids for whatever lots that interest you.

Please remember that whether you bid on one lot or a hundred it will be appreciated by me, and I will give it the same careful and honest service—the same as if you had yourself been present at the sale. If you desire any further information regarding any lots I will give it promptly and cheerfully.

Please mail your bids early.

Always glad to serve you.

Cordially yours,



Fort Worth, Texas, October 21, 1912.

Some are plain square boxes, others are provided with room for a detailed description of the coin. They measure from ¾ to 1¾ inches square. Made of good white stock, sides in pale blue. The coin boxes in this lot, of course, have all been used, but are in perfect condition, but have nota-

tions on them, which can easily be removed. They cost on an average of about 3c each. 2,597 pcs. Sold as one lot. Those having coin cabinets will find these coin boxes undoubtedly the best method in which to keep the coins.

1260 Unused coin boxes of the same description as in preceding lot. All sizes. 1,100 pcs. Sold as one lot.

TERMS OF SALE

PLEASE READ BEFORE BIDDING.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, the first received gets the lot. When two or more unlimited bids on a certain lot are received, the first one received gets the lot at an advance of 5% over the highest bid.

When I receive your bids, I consider myself as your agent and buy the lots for you as much under your bids as the next highest bid will permit. I simply execute your bids for you as faithfully as if you had yourself been present at the sale.

I CHARGE NO COMMISSION FOR EXECUTING BIDS.

Lots sold as catalogued. No lot is broken under any circumstances. Bid by number of lot and at SO MUCH PER PIECE. If there are ten pieces in a lot and you want to offer $1.00 for the lot, make your bid 10c.

I guarantee all coins and notes to be genuine unless otherwise stated in the catalogue. This guarantee holds good indefinitely.

TERMS: The terms of auction sales are strictly cash. Parties unknown to me must send a deposit covering at least 25 per cent. of their bids or send satisfactory reference, otherwise they will not be accepted, as I cannot be expected to ship goods to parties whose good standing is not known to me.

Remittance should be made promptly in any way most convenient to yourself.

A neatly printed list of prices of this sale, showing amounts realized for each lot, will be sent for only 50c, CASH WITH ORDER. This is surely the cheapest and best method to keep posted on the prevailing prices of coins.

PLEASE SEND IN YOUR BIDS EARLY. All bids must be in on or before Tuesday, November 19, 1912.

If you have any coins that you want to sell either at auction or private sale, write me for terms.

NOTICE TO NEW BIDDERS.

Buying coins at auction sales is not the same as receiving coins on approval. The coins are bought for you on your order and you are of course expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid for the lot you desire and at so much PER PIECE.

"History Repeats Itself"

In 1908 I sold for Mr. Wm. E. Deeds of Evansville, Indiana, his duplicate coins. He then wrote me as follows:

"I want to say that the catalogue is well gotten up and I want to thank you for the prominence you gave my stuff. I have had many pieces catalogued by about all the dealers, and never before have I had such pains taken with them. And it is a cinch that if you don't get there in the coin business, it won't be because you don't try."

And NOW, in 1912, Mr. Deeds writes me:

"My present business will keep me on the trail all the time. I will have no time to devote to coins, so I am going to place my entire collection with you for auction, having explicit faith in your methods."

This is only one of numerous results of my CONSTANT fair dealing combined with ability to render satisfactory results.

Mr. Deeds' collection is now being catalogued by me. It is an interesting general collection with many good rarities, choice cents, patterns, fractional currency, etc.

ALL WHO WISH TO SELL are invited to correspond with me before making definite arrangements. I believe I can offer you terms and facilities that will meet with your entire approval. A bulky scrapbook of letters similar to above and other PROOF is ready for your inspection to prove my statements, and you certainly owe it yourself to at least compare my records with those of any other market before making definite arrangement for the sale of your collection.

Always glad to hear from you.
